

“COL. TITUS.”—The news from Nicaragua by the the Tennessee, does not furnish a very brilliant certificate of karacter for old Titus, the Border Russian bandits, from Kansas. The account is that Col. Lockridge had attacked Castillo, but “*failed from the cowardice of Col. Titus who led the party.*” Nobody who knows the character of Titus will be surprised at this announcement. So consummate a villain could hardly be anything else but a coward. He might be brave enough among the women and children and emigrants in Kansas, but he is no doubt a skulk whenever he smells powder and sees any peril to his own contemptible carcass. It is rather to be apprehended that he won't have pluck enough to fight where there is any chance to be killed. He wants, we suppose, to bully the cripples and assist the South in carrying out the principles of Squatter Sovereignty.
