

---

Col. Titus.

This hero is again to shed his benignant influence in Kansas. The N. O. Delta, just received, says:

By a private letter, received by a gentleman of this city, we learn that Col. Titus is about to depart from New York for Kansas. He complains bitterly of the injustice done him by the Nicaraguan correspondents, and declares his intention to make good his reputation for bravery, if occasion arises, in that territory.

"The Northern abolition papers," he says, "will have enough to do to keep track of me."
